

Remote Panel RP-3000XT for easYgen-3000XT Series Genset Controls

DESCRIPTION

Woodward's RP-3000XT is a touch screen remote control and annunciation panel for use with the easYgen-3000XT series controls. It is particularly useful with the back panel mounted easYgen-3100XT/3400XT, providing control from the front panel with greatly reduced wiring to the access door, while keeping high voltage connections located safely on the back panel.

The RP-3000XT offers all the HMI resources that the display variants easYgen-3200XT/3500XT offer, but with touch screen technology. Irrespective of the easYgen-3000XT variants, this compact HMI solution connects to up to 32 XT controls (select and access one easYgen-3000XT at a time).

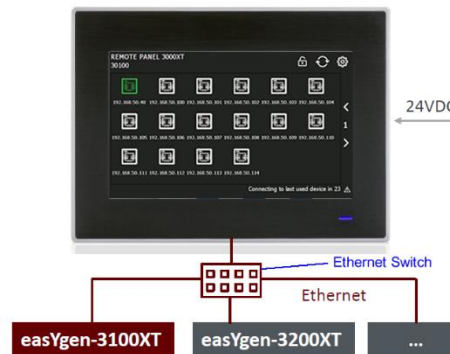

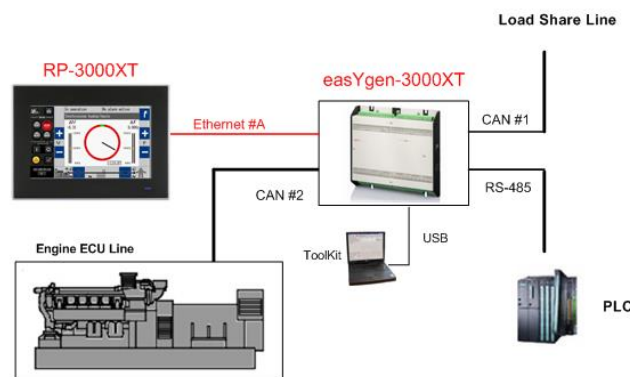

The RP-3000XT offers switchgear builders, genset packagers, and system integrators an off-the-shelf HMI option for any application where a secure remote control, monitoring and visualization is desired, such as hospitals, data centers, offshore rigs, landfill and wastewater gas-to-power applications to name a few.

In a paralleling application, the RP-3000XT provides the flexibility to connect each of the easYgen-3000XT controls (one RP-3000XT for one easYgen-3000XT) or to connect multiple of the easYgen-3000XT (one RP-3000XT for a fleet of easYgen-3000XTs, accessing one at a time). The communication between the two devices are always through Ethernet.

Features

RP-3000XT features help realize following use cases:

- Mounted to the front door and connected with a back panel mounted easYgen-3100XT or easYgen-3400XT for a safe and compact installation
- Installed away from genset room and connected with a front panel mounted easYgen-3200XT or easYgen-3500XT for applications requiring multiple HMIs
- Mounted to the front door and connected to a fleet of easYgen-3000XT series controls (up to 32) for cost sensitive and/or space constrained applications
- Power ON LED at face plate
- Multi-lingual display capability of the connected easYgen-XT (RP-3000XT menu in English)

- Plug-and-Play remote annunciation and remote control of the easYgen-3000XT Series genset controls
- Generic remote panel, connects to all easYgen-3000XT series controls
- Multi-Cast function, offers connection to a fleet of easYgen-3000XT controls (one at a time)
- Offers on-the-fly configuration with same security levels as easYgen-3000XT
- Simplifies wiring to the access door and keeps high voltage connections remote
- Small footprint makes compact installations
- Touch screen and Color display
- Ethernet communication to genset control
- Multi-lingual Capability
- CE Marked
- UL/cUL Listing

SPECIFICATIONS

Power supply	24 Vdc ±10%
Intrinsic consumption typical 7 W
Ambient temperature (operation)-20 to 60 °C (-4 to 140 °F)
Ambient temperature (storage)-30 to 70 °C (-22 to 158 °F)
Ambient humidity10 to 90% RH@40 °C, non-condensing
Housing	Front panel mounting PC plus ABS (with die-cast aluminum alloy front bezel)
Dimensions WxHxD	03.4 × 150 × 43.7 mm
Front cutout WxH	192 × 138.5 mm
Frontinsulating surface
Weight approx. 1 kg
Sealing Front IP66 (with clamp fastening)
Connection (power supply)screw/plug terminals 2.5 mm ²
Interface (others not to be used) Ethernet

System Hardware	
CPU RISC processor with 32 bits 600 MHz (ARM® Cortex™-AB)
Backup Memory FRAM 128 KB
Memory DDR2 256 MB on board
Storage 512 MB on board, SLC type
Power-On LED bar blue
Software	
Operating System Microsoft® Windows CE 6.0
Woodward Application Remote Panel RP-3000XT software

.....Auto-start software to connect to an easYgen-3000XT
..... for remote control via Ethernet

Display	
Type WVGA TFT LCD
Size 177.8 mm (7")
Max. Resolution 800 x 480
Max. Colors 64k
Luminance (cd/m ²) 500
Viewing Angle (H/V) 140/120
Backlight Life LED; 50,000 h
Brightness adjustable yes
Contrast Ratio 700:1

Touch Screen	
Life span 36 million touches at 8 mm diameter finger point through silicone rubber bearing at least 250 g two times per second
Light Transmission Above 80%
Resolution Linearity
Beep ON/OFF by software
Type 5-wire, analog resistive
Vibration protection Operating, random vibration 1 Grms (5 to 500 Hz)
Disturbance test (CE) tested according to applicable EN guidelines
Listings Industrial Control Equipment UL 508 certification CE, BSML, CCC, UL, FCC Class A

DIMENSIONS

Plastic housing with metal frame for front panel mounting

Dimensions in mm
Panel cut out:
192 x 138.5

REMOTE CONTROL AND CONNECTION

The easYgen-XT to be remotely controlled must be in the same Ethernet network as the Remote Panel RP-3000XT. After auto-start procedure, the MULTICAST screen presents all easYgen-XT in the current network by icon and IP address: see figure 1. Manual selection by touching the icon or with auto-setup countdown the BASE screen will open and enable remote access to the preferred easYgen-XT: see figure 3.

Otherwise, if the preferred easYgen-XT is not found, the SETTINGS screen gives access to adjust network setting, and additionally auto-connect type and brightness level: see figure 2.

The MULTICAST screen presents the network view for device selection (1) of up to 32 easYgen-XT:

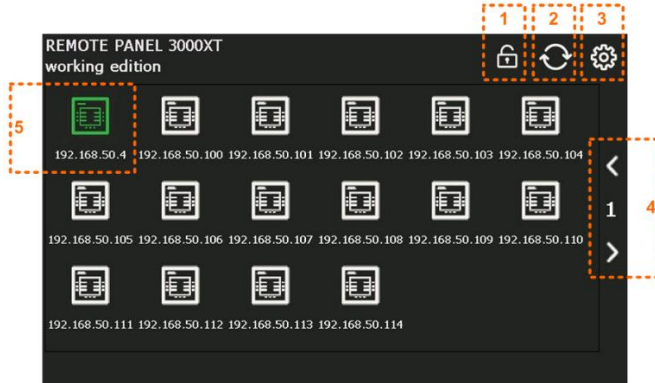

Figure 1: **MULTICAST** screen with

- 1) Lock touch screen for cleaning
- 2) Refresh network overview
- 3) Open SETTINGS screen
- 4) Go to next page (if more than 16 easYgen-XT)
- 5) Icon and IP address of the easYgen-XT remote control candidate (green = latest connected)

The SETTINGS screen allows network (4), auto-connect (1 and 2), and brightness adjustment (3):

Figure 2: **SETTINGS** screen with

- 1) Three auto-connect pre-sets
first / latest / no auto-connect (nothing checked)
- 2) Delay time before auto-connecting
- 3) Brightness adjustment between 0 and 10
- 4) CLIENT IP settings to adjust the IP address of the RP-3000XT and the Ethernet network settings
- 5) Back to MULTICAST screen
- 6) Beep by touching screen

... and finally the **BASE** screen mirrors the easYgen-XT HMI and front panel buttons:

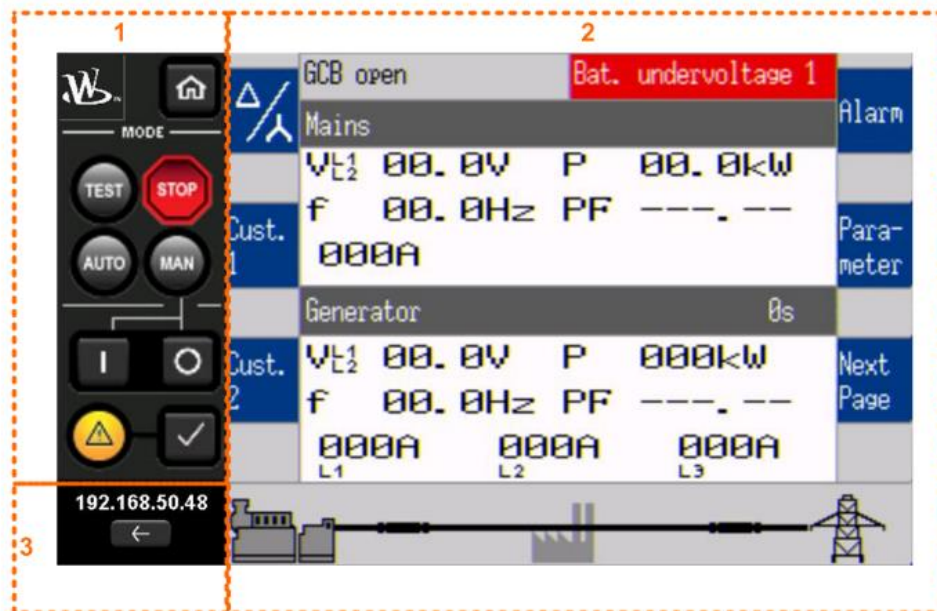

Figure 3: **BASE** screen with

- 1) Simulated easYgen-XT front panel buttons
- 2) Mirrored easYgen-XT HMI screen
- 3) IP address of connected easYgen-XT and back arrow to MULTICAST screen
